Distilling an i Cattle Feeding, Sugar Refining and one or two other industrial stocks. Substantial advances were made by the Granger shares, but in this group Burlington and Quincy gained much more than Rock Island, Northwestern of even St. Paul. Of the coal stocks Lackawanna was higher on the declaration of the quarterly dividend, but Reading was virtually unchanged Missouri Pacific advanced 1 per cent, and on small transactions Union Pacific gained 1-2 per cent but exceptionally Manhattan Railway lost 1 1-4 per cent. The advances were in spite of higher rates for money and foreign exchange. The flurry in the money market was due to the coincidence that it was the last business day of the week, as well as the month and quarter. It was helped also by the fact that loans amounting to several millions were called in anticipation of dividend and interest payments on Monday. It was estimated that about \$2,000,000 loaned in the Street was called on account of the dividend on Sugar Refining stock, which is payable on that day. were a natural consequence of the Easter holidays. State issues were wholly neglected, and there were no safes of city bank stocks.

The general bond market was dull, without other prominent feature. Erie second consols were materially higher at 98, but few bonds were offered at this figure. The general movement of sprices was downward. Chicago and Northern Pacific firsts were unchanged at 78 3-8. Reading issues were dull, but the general 4s declined 3-8 per cent to 73 1-8; first incomes 7-8, to 46, and second incomes 1 1-8 per cent, to 32 1-2. These prices were not in every instance the lowest for the day. Reference is made to our full report of bond sales.

Money on call was higher, but the disturbance in rates was due to the occurrence of a holiday at the end of the month and quarter. At the Stock Exchange loans extend to Monday. Early loans were made at 6 per cent, and after 10, the rate again fell to 6 per cent, unit in the last hour it rose to 25, and the last loans were at 12 per cent.

it rose to 25, and the last loans were at 12 per cent.

The Clearing House statement was as follows: Exchanges, \$97,529,120; balances, \$4,833,235.

The Sub-Treasury was debtor to the Clearing House \$417,313. Its net loss on balance was \$450,398, made up by losses of \$270,601 in coin and \$179,797 in currency. The day's operations included: Receipts, \$2,326,941; payments, \$2,777,339; resulting in a general balance of \$97,226,838; consisting of \$76,631,247 coin and \$20,595,591 currency.

The United States Treasury at Washington received to-day \$217,641 National bank notes for redemption.

The customs receipts were \$707,500, the internal revenue receipts \$451,743, and the miscellaneous receipts \$63,355.

To-day's Washington Treasury statement of cash on hand and deposits in banks compares with the figures of the last previous statement as follows:

March 29. March 30. Differences.

The foreign exchanges were quiet, but distinctly higher. The advance in rates for long sterling was caused partly by easier money in London, but rates on Continental points were higher without similar pretext. Following are rates for actual business: Bankers' bills, \$4.86 1-4284 86 1-2 and \$4.88 for long and short sterling respectively; French francs, 5.17 1-2 and 5.15; reichmarks, 95 1.8 and 95 9-16.
